2

What we have to say- independent members

Members of the Network Team are worried about the information from their doctors records being shared.

They have not had enough information to make a decision and were not sure how to opt out.

Debbie explained what some of the details would be used for.

Debbie has seen a form online that people can fill in and take to their doctors so they can opt out.

ACTION Debbie to share

Debbie said she has been getting her daughter’s PAs to do lateral flow testing at hers.

This was arranged through the council.

It has been difficult to find out if this will continue in the same way or if the staff will have to collect their own kits from a pharmacy.

Some people said that busses are now busier than before.

They are worried that they cannot be socially distanced.

Some people take their masks off once sat down.

One bus driver said they do not have to monitor numbers on the busses.

ACTION The Network team are going to contact Stagecoach.

3.

Update from the Learning Disability Partnership and SEND

Welcome to Philippa who has joined the team.

We are starting to get back to normal.

Teams are working in small bubbles in the office, and we are now able to meet people in their homes.

Most staff have had their second vaccine.

We are doing a big recruitment drive.

We need a psychologist and an occupational therapist as due to lockdown our waiting lists have got bigger.

Karen Foody our lead LD nurse has retired, and Rebecca Ford is standing in in the meantime.

We are working with day providers to see how people can get to attending. We are checking to see if people still want to go.

We have been monitoring the hospital admissions since last March for people with learning disabilities. There have been 392 which is high.

Addenbrookes have a new disability liaison nurse and are recruiting for a children's one too.

We have been told lots of issues around bowels, so the community nurses have been making easy read leaflets for people.

4.

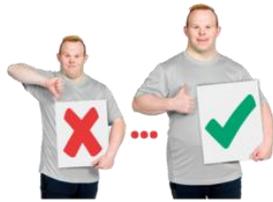

Funding for the Future- Emma Grimes

Emma gave a presentation. She said that there is to be investment in LD and Autism services.

There are 3 overall aims

- To improve quality of care for people with a learning disability and/or autism.
- To improve quality of life for people with a learning disability and/or autism

- To enhance community capacity, thereby reducing inappropriate hospital admissions and length of stay.

We want to know if things are not good or if there is more than can be done.

We will be asking people their views and ideas.

There is money for the next 3 years.

£1.273 million for this year

£1.5 million for next year

£1.7 million for 2023

Emma was asked about LD health checks.

She said there is more money for this and a specialist nurse is going to be employed to work with GPs to encourage the checks to be done and to find out why some people do not want to go for them.

Graham said he had been attending meetings with Susan Sadek which had been talking about health checks. Susan is temporarily away from her post and Graham has been missed off mailing list.

ACTION Emma will email Hannah to make sure Graham is on list (after meeting update, Graham is now in contact with Hannah who is looking at health checks etc)

5.

Co-Production at NW Anglia FT hospitals-Hannah Sheehan-White

Our aim is to listen to the community and shape the hospital's Learning disability and Autism policy around your experiences.

Have you ever been a patient in Peterborough, Stamford or Hinchingsbrooke hospital?

Do you know how the hospital can help you when you are in there?

Do you know about hospital passports?

If you had a problem, would you know who to speak to?

We would like to hear from you.

The High Support needs committee had raised previously the lack of ceiling hoists.

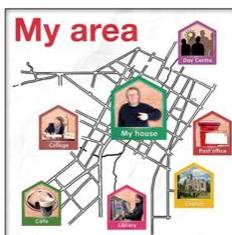

There are mobile hoists in the hospital, but people are uncomfortable about using them and do not feel safe. It would be better to have a ceiling hoist in each bay.

Hannah was asked how people will know you want feedback. Not everyone has internet.

Some people will be asked when in hospital. There are plans to put information in doctor surgeries.

As many people are not getting face- to -Face appointments it was suggested that Hannah maybe thinks about local newsletters and notice boards.

6.

Update from other meetings

Graham has been attending the adult social care forum. They have chosen three priorities:

- Digital inclusion
- Co-production
- Transition from Children's Services to Adult Services

Gareth Peters has not restarted the locality meetings. **ACTION** Jill will speak to Gareth to see how we can move forward.

People at meeting thought these were good. What about Peterborough members?

ACTION Graham to raise at Adult Social Care Team that there is no lead from Peterborough. (Post meeting note:

		this has now been partially resolved with a representative from Peterborough Children’s Services).
7.	   	<p>LD Vison-Maddy Hill</p> <p>The Learning Disability Partnership are looking at 10 themes to work with over the next few years and want to know what people think.</p> <p>There is a survey that will be shared asking people what they think should be focussed on. The themes are:</p> <ul style="list-style-type: none"> • Housing • Health in community • Health in hospital and specialist services • Communication and advocacy • Transport • Day opportunities • Employment or education • Transitions • Digital/ technology • How organisations work together
8.		<p>Minutes of Last Meeting and Action Log</p> <p>Minutes were approved.</p>
9.		<p>Any Other Business</p> <p>The group discussed future meetings. Will they be in a room or still online.</p> <p>Many felt a hybrid meeting (with people in room and online) would be good for people so they can choose how to join.</p>
		<p>Date of next meeting:</p> <p>September 16th- Michelle Mansfield to co-chair</p>
